

Sending a Payment to AFSC

AFSC offers payment solutions that make it easy to do your business, your way. Stay on top of your payments and avoid late fees by easily and securely paying bills online or choose a solution that works for you.

ONLINE

1 Visit your bank's website, login, and search for "add payee" or "new payee".

2 Add payee "Agriculture Financial Services Corporation". The payee name which your bank recognizes may vary, such as "Agriculture Financial Services" or "Agriculture Financial Services Corp".

3 If you have more than one loan or policy (subscription) with AFSC, you must set up a separate bill/payee combination for each subscription.

Account Number
4123456

4 Set up your bill/payee combination using your subscription number (insurance/AgriStability) or loan number (lending) as the account/reference number. Do not use your AFSC ID, as it is not a valid account/reference number.

Insurance/AgriStability: Using your subscription number as the account/reference number, beginning with the first number after the zeroes

Example: Subscription number 004-123456 would be entered as 4123456

Lending: Depending on the age of your loan, the length of your loan number may vary

Example: Older loan numbers use this format 4726410, while newer numbers use this longer format 904726410

Account Name
Tractor Loan

5 Depending on your bank, it may be possible to set up a descriptive account nickname for each bill/payee combination. For example: Crop, AgriStability, Tractor Loan.

IN PERSON

Visit any AFSC branch across Alberta. Go to AFSC.ca for locations and hours.

BY MAIL

Cheques can be sent to your preferred branch office.

Include subscription number and AFSC ID number on the cheque
