COMPLETE IF YOU CUSTOM FEED FOR INCOME:

Type of animals custom fed (e.g. Beef feeders) _____

Number of animals custom fed: _____

Average custom feed days per animal: _____

Guide to Completing the Reference Margin Accrual Schedules

In AgriStability, participants who file taxes on a cash basis will have their reference margins adjusted for net changes in inventories, deferred income and receivables, purchased inputs and accounts payable.

It is mandatory to include accrual adjustments for all years in the reference period. If available, AFSC will use information that has been previously submitted for the CAIS and AgriStability programs to complete these reference margin accruals for any year in the reference period.

The Reference Margin Accrual Schedules can be used to submit missing information. To substantiate inventories, deferred income, receivables, purchased inputs and accounts payable for each year in the reference period, participants must submit either:

- a) Financial statements that were submitted to and accepted by a lending institution, detailing the applicant's opening and ending inventories, inventory values, deferred income and receivables, purchased inputs and accounts payable for each of the reference years; or,
- b) Completed Reference Margin Accrual Schedules (enclosed here) for each of the reference years in which information is missing.

Schedules and financial statements are subject to verification by the AFSC.

USING THE REFERENCE MARGIN ACCRUAL SCHEDULES

The completed Reference Margin Accrual Schedules should be submitted with a participant's Supplementary Information Forms for the specific program year.

Send completed Schedules to:

AFSC
AgriStability Program
5718 - 56 Ave
Lacombe, AB T4L 1B1
Fax: 403.782.8348 or 1.855.700.AFSC (2372)
Email: info@afsc.ca

COMPLETING THE SCHEDULES

You must complete a Schedule RM-1, RM-2 and RM-3 for every fiscal year you are submitting missing information for.

The quantity of purchased inputs, crops and live-stock inventories, deferred income and receivables, purchased inputs and accounts payable at the end of each fiscal year must match the quantity of purchased inputs, crops, and livestock inventories, deferred income and receivables, purchased inputs and accounts payable at the start of the subsequent fiscal year.

Deferred Income and Receivables: Provide a description of all allowable deferred income and receivables, and their corresponding dollar values that you had at the start and at the end of the fiscal year.

Accounts Payable: Provide a description of all allowable accounts payable, and their corresponding dollar values that you had at the start and at the end of the fiscal year.

Purchased Inputs: List all allowable purchased inputs and their corresponding dollar amounts that you had on hand (including those for prepaid inputs) at the start and at the end of the fiscal year.

Crops: List the quantity of all crops held in inventory, their grades or varieties, the units of measure and/or bale weights if applicable, you had at the start and at the end of the fiscal year. Do not include crop share amounts.

Livestock: List the quantity of all livestock held in inventory and their average weight (where applicable) you had at the start and at the end of the fiscal year.

Crop and livestock inventories will be valued according to the Fair Market Values (FMV's) published for AgriStability. You are not required to submit your own FMV's.

Using Fair Market Values (FMV's) other than those in the Published Price List: you may use alternate FMV's than those in the Published Price List only if:

- Your commodity is substantially different than the commodity listed in the published price list; or,
- Your method of marketing the commodity was substantially different than the general marketing practice reflected in the published price list.

In each of these cases, you may use FMV's based on sales or purchases of the specific commodity in your name occurring within thirty (30) days before or after your fiscal year-end. For your own FMV's to be accepted, you must submit copies of receipts and/or supporting documents that substantiate these FMV's with your form.

FMV's for Commodities not listed in the Price List: Where the Published Price List does not provide a FMV for a specified commodity; you must provide a FMV for your commodity. Providing documentation supporting prices submitted for unpublished commodities will assist the AFSC in determining whether the FMV you have submitted is reasonable for your farming operation. Supporting documentation includes:

- Receipts from sales or purchases of the commodity;
- Price information from appropriate commodity marketing agencies.

Note: AFSC reserves the right to determine whether submitted prices are reasonable for your farming operation.
