### Additional Farm Operation Intended Productive Capacity – Print Additional Pages as Required

Use this form if you have multiple farming operations.

Productive capacity must be provided for all operations, and each operation must submit productive capacity on a separate form.

In the table below, list your farming operation and identify the total number of farming operations. This information will assist in identification of multiple operations and calculation of the coverage notice.

For more information, please see the Coverage Notice Request Guide, available at [www.afsc.ca](http://www.afsc.ca).
