

# AgriStability Historical Productive Units Guide

This guide provides information on how to complete the Historical Productive Units Form. Information collected on this form is used to determine any potential adjustments to the reference margin to reflect changes in your farming operation.

## General Information

This form is only applicable to new or returning participants who have elected the Optional Reference Margin (ORM). Participants that have elected the Accrual Adjusted Reference Margin (AARM) must complete the AgriStability Reference Margin Accrual Schedules.

## Client Information

Enter your Identification Number, AgriStability PIN and Business Name.

## Historical Productive Units

Enter your productive units for the previous three (3) years or five (5) years, depending on your reference margin selection, excluding landlord share, if applicable. You can select your commodities from the dropdown list or manually add them under each category. Use a separate table for each farming operation. Additional forms are available on [www.afsc.ca](http://www.afsc.ca).

### CROP & FORAGE BASKET (excluding landlord share)

Crop Basket Dryland	# of seeded acres
Crop Basket Irrigated	# of seeded acres
