Details of Hail Damaged Acres				
Land Description (Part-Section-Township-Range-Meridian)	Crop (one crop per line)	Number of acres in field	Your estimate of % of damage	If you intend to put the damaged acres to a use other than combining, record the date you intend to start.

Yes No Do you require additional fields? If so, please request the form Client Report Hail Claim Information Additional Fields from your branch office.

To protect your Insurance, notify AFSC 5 days in advance of harvesting the damaged acres or putting a crop to a use other than combining; such as silaging, greenfeed, turn cattle into, plowing down.

Inspection Strips: Inspection strips are standing strips or swaths of insured crop left in from the edges of the field, a distance of about one-third (1/3) of the width of the field, for the length of the field and a minimum of 10 feet in width, for inspection by AFSC. The client is responsible for the maintenance of all inspection strips and swaths.

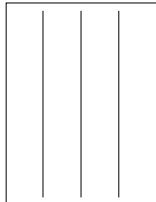

1. On field up to 100 acres, 2 strips are required.
2. On fields over 100 acres, an additional 3rd strip must be left in the middle of the field.
3. On fields over 100 acres that span multiple quarter sections, treat each quarter-section as a separate field.
